

Adding Modified 1N4735A Zener Diode Model

- Double click on the file “**Zener**”.
- **Database Merge** window should popup.

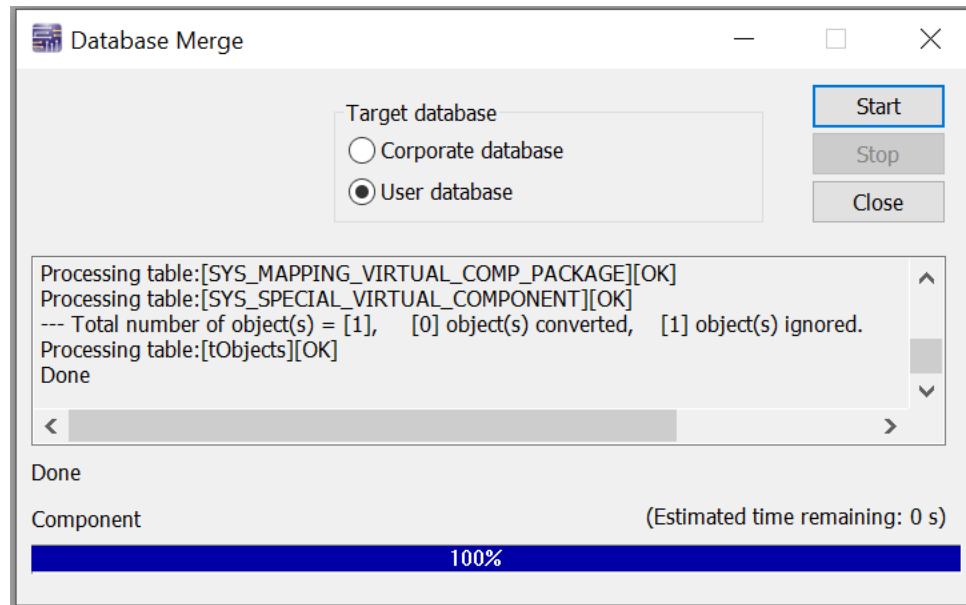

- For Target database, select “**User database**”
- Click “**Start**”.

- Select **any option** as you don't have any component in the user database.
- Click “**OK**”

- Once you see **100% completion**, you can **close** the Database Merge window.

- Modified Zener diode will be available under user database.
